Features

Automatic control system exclusively for MILNOR CBW® washers
Saves time in programming and maintenance
Saves training time
One step data backup and restoration

Benefits

1000 Formulas A formula is programmed step-by-step entirely on one screen. Numerous shortcuts and timesaving features aid programming.
On-line troubleshooting Mentor® does more than alert you to any errors that might occur. It offers instant, on-screen access to guided troubleshooting steps.
Familiar graphical Windows® interface Makes it easier for you to capitalize on the MILNOR CBW® washer's vast capabilities.
Simple programming interface One feature, the Function Programming window, lets you define several related output signals (e.g., alkali valves) as a group. It also facilitates visual organization of functions (e.g., grouping all chemical valves)
